Secure. Seamless. Smart. **MediPro+**

The Most Intuitive DICOM Solution

The VMS MediPro+ DICOM Solution offers holistic, end-to-end management. It is ideally-suited for Hospitals, Diagnostic centers with MRI, CT-Scan, Endoscopy, Sonography, etc. looking to adopt new digital imaging technologies or radiology centers with few per-day exposures.

It provides easy integration with all modalities and maintains a perfect balance between image quality and convenience. Most importantly, it ensures significant costs reduction as well as helps minimize the environmental impact on a daily basis

VMS MediPro+ is an advanced, DICOM-to-Windows printing solution with a host of rich features.

- It offers multi-modality connectivity and supports four different Windows-based printers at one time.
- For fast printing, it can be configured to send prints to the next available idle printer in rotation.
- Suitable for Pre-Natal Diagnostic Technique (PNDT) prints.
- Enhance print quality by applying linear DICOM Look-Up Tables (LUTs).
- Handles both Greyscale and Colour prints at a time.

Maresh Desai
Chairman, EEPC India

Chairman's Pen

Bangladesh Med Expo 2022 prides itself as the leading healthcare business platform in the South East Asia. Connecting manufacturers and service providers with clinicians, procurement professionals, dealers and distributors is the primary goal of the event. The 2022 edition of the event is all set to start from 22nd September 2022.

It is the one-stop shop for healthcare sourcing & procurement. Bangladesh Med Expo has brought the latest innovations in healthcare. From state-of-the-art imaging equipment to the most cost-effective disposables; developments in surgery to advances in prosthetics, Bangladesh Med Expo continues to be at the heart of healthcare in the South East Asia.

The three day show will help the exhibitors in making key business contacts by utilizing multiple channels to connect to the region's healthcare industry.

All the best for the event.

Maresh Desai
Chairman,
EEPC India

Aakash Shah

Chairman of the Committee on
Trade with SAARC Countries
EEPC India

MESSAGE

Bangladesh is India's biggest trade partner in South Asia and India is the second biggest trade partner of Bangladesh after China. Bilateral trade between India and Bangladesh has grown steadily over the last decade. In the FY 2021-22, India's exports to Bangladesh were USD 16.1bn and imports were USD 2.0bn, witnessing a positive trade balance to the extent of USD 14.2 bn.

Medical equipment and parts is the focus product of the Bangla Med Expo 2022. India's export to Bangladesh is estimated at USD 26 million in 2021-22 compared to USD 19.6 million in 2020-21, registering a growth of 32%.

India also seeks a comprehensive free trade agreement with Bangladesh prioritizing some of the focus areas including uninterrupted supply chain, joint production of defense equipment, and pharmaceuticals. Both the countries will soon finalize a joint study on the proposed bilateral free trade agreement, aimed to boost economic ties as discussed during secretary level talks.

Bangla Med Expo 2022 is the right forum for Indian suppliers of the medical equipment industry to exchange their technologies and ideas in this sector which will result in increasing merchandise trade between the two nations.

Aakash Shah

Chairman of the Committee on Trade with SAARC Countries
EEPC India

Suranjan Gupta
Executive Director
EEPC India

MESSAGE

EEPC India is all set for Bangla Med Expo 2022. The event is scheduled over 22-24 September 2022 in Dhaka, Bangladesh. Bangladesh is the ten largest export destinations for Indian engineering products with a share of around 2.6 percent in India's global engineering exports. During 2021-22, India's engineering exports to Bangladesh reached USD 2929 million compared to USD 2088.7 million in 2020-21, registering a growth of more than 40%. Despite of Bangladesh being one of the top ten export destination there is ample scope for India for increasing its share in Bangladesh's import considerably. Among the top engineering exported products to Bangladesh, auto components and parts, industrial machinery, iron and steel, electrical machinery, medical equipment constitute a major share.

India has been serving as one of the strongest pharma-economies across the world. The country has emerged as single point resource for Pharma Machineries and Engineering Equipment in the world pharma markets. Indian pharma companies enabled by their price competitiveness and good quality have made global mark, with 60 per cent of the world's vaccines and 20% of generic medicines coming from India.

I am sure the show will be gainful for the Indian Exhibitors led by EEPC India

Suranjan Gupta
Executive Director
EEPC India

Dear Mr. Anurodh Parashar,

BANGLA MED EXPO 2022 is a one of its kind Medical & Healthcare Event offering an ideal International Platform to Medical & Healthcare Industry. It is one its way to become the most successful and exceptional Exhibition to showcase Medical Technologies in Bangladesh.

India is one of the fastest growing Country in Medial & Healthcare Sector. BANGLA MED EXPO - 2022 providing an opportunity for interacting with People of different Countries for trade and business at a single place to set up profitable overseas business relationships and keep abreast with accessible Technologies.

I heartily congratulate all participants and want to offer my gratitude to Mr. Anurodh Parashar, Project Head, Healthcare Exhibition, S D Promo Media Pvt Ltd for his genuine efforts for the establishment and growth of India Medical & Healthcare Industry.

We hope that BANGLA MED EXPO-2022 can become the preferred Healthcare Exhibition for Indian Medical Devices Industry in the Region and rise to the levels of Arab Health, Dubai & Medica Germany.

With Best Wishes to Participants for a Successful Show.

Rajiv Nath

Forum Coordinator

Association of Indian Medical Device Industry (AiMeD)

Vivek Vikram
Director - Marketing

MESSAGE

I look forward to welcoming all exhibitors, visitors, delegates and industry captains from all over Bangladesh and other countries, especially from India.

We are pleased and enthusiastic to host two events together for Medical, Healthcare, & Laboratory industries. This is the 1st edition of the largest event in Bangladesh in the Medical sector with the help of EEPC INDIA (Engineering Export Promotion Council of India).

Exhibition industry has gone through a very rough and indecisive phase in the last two and half years and is still facing some uncertainty after the pandemic era. We are firm and dedicated to serve the industry and help them to grow their businesses via trade exhibitions.

Bangla Med & Lab Bangladesh Expo 2022 is the most happening and largest event of its kind in Bangladesh. We are thrilled to have major brands and new companies in medical & lab from India are participating with us.

We take great joy in providing support to our participants in the event and stay true to our work ethics and consistency in delivering value and innovations to the Medical and Lab fraternity.

Our sincere thanks to all our exhibitors, visitors, sponsors, vendors and partners and special thanks to EEPC INDIA and AIMED for their valuable contribution & support for making it possible.

Vivek Vikram

We are India's largest manufacturer of Syringe Infusion pumps. An ISO 9001:2000 certified critical care equipment company, AKAS, manufactures world-class Drug Delivery devices like Volumetric Infusion and Syringe Infusion pumps for use in hospitals and medical institutions. Founded in 1996 by two engineers inside a humble garage in a town called Tiruchirapalli, Tamil Nadu, today AKAS has grown exponentially and exports to 15+ countries throughout India and South Asia, where it consistently exceeds customer experience.

Currently the largest manufacturer, the company aims to be the leader in Syringe and Infusion pumps with two factories, one in Tiruchirapalli and one in Chennai and comprises a team of Medical, Engineering and R&D experts who continuously challenge themselves to offer products par excellence.

In the last 24 years since inception, we have over 10000+ customers and over 50000+ products installed. AKAS employs over 200 employees and 50% of them are engineers. AKAS is fully dedicated to improve ICU care and patient care in the area of drug delivery and fluid management. AKAS Infusions is now launching a Urine Output Monitoring device and Fluid balance monitoring in 2020.

As AKAS is only involved in drug delivery equipment it is possible to cater to all types of customers who seek high end sophistication from wireless connectivity to low end value for money. Our flagship product Terumax Rx syringe pump and Infumax Infusion pump is CE approved.

The company boasts of a strong customer-oriented channel partner network than spans across India and overseas, with a promise to provide prompt and around-the-clock service.

Tel / Mob:- +919871025115
Email: psingh@eepcindia.net
Website: <http://www.eepcindia.org>

EEPC India has been the Face of Indian Engineering exports over a span of 65 years when India grew from a meagre \$10 million engineering export nation in 1955 to USD 72.7 Billion (2020-2021) and is regarded as the MODEL EPC in India by the Union Ministry of Commerce and Industry.

EEPC India is the premier trade and investment promotion organisation in India. It is sponsored by the Ministry of Commerce & Industry, Government of India and caters to the Indian engineering sector. It has many firsts to its credit. The First Indian EPC to have a website, to be ISO certified, to have a Mobile App, to have an in house Technology Centre and also to e catalogue the product profiles. As an advisory body it actively contributes in the policies of Government of India and acts a prime conduit between the Indian Engineering fraternity and the Government. Set up in 1955,

EEPC India now has a membership base of over 13,000 predominantly drawing 60% from MSME segment. EEPC India has been participating and organising promotional activities including buyer-seller meets (BSM) – managing India pavilion in selected overseas exhibitions to demonstrate the capabilities of Indian engineering industry. INDEE (Indian Engineering Exhibition) and its domestic counterpart – IESS (International Engineering Sourcing Show) are two flagship events of EEPC India.

Global Medicare is proud to grow with our customers by offering a strong value with our new and refurbished medical equipments and exceptional service. We started our journey in the year 2008 as a small service company and now, become a pioneering Trader and Distributor of exceptional quality range of Medical Equipment such as Ventilator Machine, ICU Ventilator, Air Compressor, Bipap, Difibrillators, ECG Machine, Humidifier, Pulseoxymeter and Syringe Pump. Apart from these, we have also started importing Ventilator and Patient Monitor which are supplied to hospitals, medical clinics, healthcare centres etc.

We believe in the mantra of giving nothing less than the best, competitive pricing, maintaining transparency in the working system and most importantly building trustworthy relationships with the clients. Our company is a blend of highly experienced seniors & young professionals who are specialized in their respective fields. They strive hard to select best manufacturing firms of medical equipment and then supply them to the customers at affordable rates within the delivery schedule.
